The Promethean Syndrome - Lyrics

BEING ALIVE

Verse 1

What is being alive ?

To know what we can not

To see, what we should not have seen

To penetrate the deepest depths

And live to tell, the tale

Verse 2

What path then should we take ?

A long and winding road

through paths of bumpy rock and stone

or gentle roads of light bereft

that pacify, only the blind

Interlude

Am I worthy of bliss

To be wrapped in your wings like this

My soul begins to shine

Our mind, what is it for

if not to ponder, to explore

to seek what is beyond the other side

Guitar Solo

Bridge

The pain of wisdom

becoms us all

the price of ignorance

lurks in it's call

Chorus

Being Alive is an Ocean of questions

Being Alive is divine intervention

Being Alive is the Mother of Mysteries

Synth Solo

Being Alive is a natural progression

Being Alive is our path to redemption

Being Alive is the Maker of History

Slow Piano/Guitar instrumental

THE CHAIN THAT BINDS

Verse1

Freedom, from the chains that bind

Freedom, is a state of mind

Verse2

Freedom, like a child it cries

Freedom, like a bird it flies

Bridge1

Change is rushing in

like the tide, a cleansing wind,

like the river to the sea

to rewrite our history....

Verse3

Freedom, cant be bought or sold

Freedom, must be free for all

Bridge2

Peace lies just ahead,

not a concept in our head

It will come once we believe,

It's a goal we can achieve

Chorus1

we all know what to look for

the signs are there to follow

we all rise up to fight for

the ending of our sorrows

we must not stop believing

of a new way of living

we must continue dreaming

around the bend is light...

Breakout

the price to pay is knowledge for everyone

no other way can mankind survive

the road to peace is inside your heart and soul

just wish it into your life

because the way to freedom is just ahead

no other way can we find the light

to shed this darkness we have been living in

just wish it into your life

Guitar Solo

Organ Solo

Chorus2 & Fade...

**we all know what to look for
the signs are there to follow**

**we all rise up to fight for
the ending of our sorrows**

BEYOND THE BOUNDARIES

A song about the Universe's self Evolution to create the conditions from which it emerges.....

"Beyond The Boundaries part 1" - The piece is based on the premise that mankind will eventually spread seeds across the Universe, and those seeds will culminate in the creation of the very same Universe we evolved from. The Cosmic Egg Theory...

Part 1 - Origins

Verse

Beyond the boundaries
beyond what man can survey
lies that one mystery
no mortal shall comprehend

Verse

Mind, is the dreamer

body the ship where it sails

soul molds the clay,

gives it form

to fly...

Bridge

...beyond the boundaries

beyond what we can see

there lies the key to it all

one simple truth from which all

started from....

where it all began, and the place

where it all will end,

is the same...

Bridge2-Moog Solo

Modulation

Beyond the boundaries

beyond what we can see

beyond what man can survey

lies that one mystery
where it began, is not the place
where it all ends,
it's NOT the same...

Part 2 - Purpose

verse 1

And I fly beyond the stars,
the void, through time and space
As I get close to the source
I see much more to face, and to find, to embrace

Chorus

Our reason to be is there,
Beyond The Boundaries

verse 2

I see the master plan
so simple in design

there's purpose to it all,
manifested in time, every line so sublime

Chorus

Our reason to be is there,
Beyond The Boundaries

Instrumental bridge and chorus

bridge(G part)

A Cell, a Sun, a Galaxy
from Atom to the Cosmos,
it's just all the same

and every-one, from You to me,
from micro to the macro
Life Begins !!!

verse 3

We live in our own Universe

beheld by our own dreams

In this cosmos, this living Sea

And we're here to find out what this life really means

Chorus

Our reason to be is there,

Beyond The Boundaries

verse 4

for once I see the master plan

so simple in design

there's a purpose and grace in all,

manifested in every line

Chorus

Our reason to be is there,

Beyond The Boundaries

Finale:

beyond the moon beyond the stars

beyond our dreams we travel far

beyond our fears beyond our view
beyond the skies still passing through
beyond our grasp, beyond our minds
beyond the source of our design
beyond seas of uncertainty
beyond lies peace for you and me
beyond the windows of our lives
beyond the realms of space and time
beyond this harsh reality
beyond there is infinity
beyond what man can comprehend
beyond the spirit can ascend
beyond this matter we survey
beyond the biggest mystery
beyond the place where it began
beyond the place where it will end

beyond a simple truth we'll find
beyond is there, The Grand Design
NO BOUNDARIES...

and

FAR BEYOND THE....

INTO THE NOWHERE

Verse I

**Into the Nowhere,
into the chasm
that's where we're headed

if we lead ourselves astray
as we pray for someone else to solve this**

while we strive to fit the mold they made us**

High Bridge(guitar echo)

...and, we, just,

all conform, to the standard norm,

that has dragged us down,

to the bottomless pit of shame

if we cannot break the chains,

that confine our minds, our souls, our bodies

while we waste ourselves away
as we wait for someone else to save us**

Bridge

**no-one's willing to take change
as we wallow in our pity
and we die to fit the mold they made us**

High Bridge(guitar echo)

**all conform, to the standard norm,
that has dragged us down,
to the bottomless pit...**

GARDEN OF IGNO-SENSE

(verse and refrain sung simultaneously)

-Verse1

We're the children of New Eden

bound for Pleasure's Isle...

Life bereft of pain is simple

Why concern yourself with knowledge

seeking evermore

Gorgy-Porgy steams our porrage

in delight we soar...

In this garden we all play

we try to cast our fears away

no deep thought shall pass our way
for pain is knowledge, knowledge pain...

A NEW WORLD

***** Part 1 *****

Visions

-Verse 1

I have seen, in your eyes, no emotion or surprise

I have seen, in your distant dreams,

A great ocean of, sheer stupidity...

I have seen, plots unfurl
set for conquest, of our world
and a battle yet to come,
that I have seen.

I have seen, in your soul, a devotion to control
I have seen, in your deepest thoughts,
The few remnants of, all our battles lost...

Yet I have seen, A New World
where our wisdom shall prevail
and the glory that once was
Will live again...

*** Part 2 ***

A New World

Verse 1

In these dreams of fallen worlds,

I have seen the chosen one

He has risen to defend

All we've come, to know....

Verse 2

In these dreams of victory

This messiah spoke to me

With a message full of hope,

"All is meant to be"...

What if we turn back from it all

What will happen to our race

if we shun this call

And as we carry on
with our plans to create
a new land for ourselves
we determine our fate...

we must be focused

Moments of Delusion (after the battle)

Verse 1

**I have seen, Moments of Delusion
within views of my own past, gone by
Weary eyes, witness an illusion**

caused by all the painful tears, I've cried...

Bridge

Bird of flight, my mind soars away

an Oasis of peace lies ahead

midnight cries, I wake up at night

and it's gone....

Verse 2

Magic words, used to grant a lifetime

of sweet memories old and new I hear

Shimmering light, piercing through my "Dream Sky"

shatters truth I only find in dreams

Bird of flight, my mind soars away

an Oasis of peace lies ahead

midnight cries, I wake up at night

and it's gone....
